

Criss-Cross Phonics

How to play

Everyone stand up. I will show a word or a picture. The first person to raise their hand gets called upon and if they can correctly say the first (or last) sound of that word they can sit down and choose if the people in their row, horizontally or vertically, can also sit down. Gradually, there will be fewer and fewer students standing. When we no longer have rows to choose from, only individual people can sit.
