

# STELLAR Primary Science Network 2018/19

For schools in Melton Mowbray area RC198 G09

Following on from two successful networks in other areas of Leicestershire, STELLAR are delighted to offer a programme of six one and a half hour twilight meetings for primary schools in the Melton Mowbray area, led by our Primary Science consultant, Nicola Beverley\*.

## Science Subject Leader - Network Meetings

All 4.00 to 5.30pm at The Grove Primary School

Providing subject leaders with the skills to drive science forward in their schools as well as the opportunity to network with other science leaders:

1. Thursday 29 November 2018 Autumn Term
2. Wednesday 6 March 2019 Spring Term
3. Tuesday 4 June 2019 Summer Term

## Teacher / TA / Subject Leader - Workshops

All 4.00 to 5.30pm at the Grove Primary School

Designed to improve skills of teachers, teaching assistants and subject leaders as they assess children's progress in science in the classroom.

Each session will highlight key messages and offer practical solutions to assessing learning outcomes - knowing what to look for and what indicates 'subject security' (or 'mastery') at each KS. Common elements will feature in each workshop, but be tailored to the specifics of the age group being taught:

1. Thursday 17 January 2019 Autumn Term (Upper KS2)
2. Thursday 2 May 2019 Spring Term (KS1)
3. Tuesday 2 July 2019 Summer Term (Lower KS2)

*\*Nicola is a skilled school improvement professional with over 20 years' experience, she is nationally renowned as a primary science specialist and was a science advisory teacher for several years.*

## Cost: £175 per school to join the Network

One named delegate will be required from each school, although schools can send alternative or additional delegates to each session. Schools will be contacted before each event to name delegate(s) for that event.
